HIPAA HYPE

**"Confidentiality is everyone's job,
not everyone's business"**

January 2003

Privacy Rule gives equal protection to human subjects involved in research projects governed by the Federal Government as well as research that is not.

Limited Data Set removes direct identifiers. Since patients can be identified with this data set, a "Data Use Agreement" must be signed. This agreement limits uses and access to data sets and requires the recipients NOT to attempt to re-identify patients.

That's it! Thanks for participating! Please complete the information below. Please print clearly! Questions? Call 603-1379!
