

There are eighteen PHI identifiers, and they apply to patients, relatives, employers or household members of the patients.

•Name	•Address (street address, city, county, zip code (more than 3 digits) or other geographic codes)
•Dates directly related to patient	•Telephone Number
•Fax Number	•email addresses
•Social Security Number	•Medical Record Number
•Health Plan Beneficiary Number	•Account Number
•Certificate/License Number	•Any vehicle or device serial number
•Web URL	•Internet Protocol (IP) Address
•Finger or voice prints	•Photographic images
• <i>Any other unique identifying number, characteristic, or code (whether generally available in the public realm or not)</i>	•Age greater than 89 (due to the 90 year old and over population is relatively small)

If you have questions about any of the identifiers, please feel free to call the HIPAA office at (501) 603-1379 or e-mail: HIPAA@uams.edu
